

Topologic Bowls

A series of cylindrical vessels with both spherical and faceted surfaces. Carefully crafted out of seasoned wood, each piece's unique character is slowly exposed as the material is removed. In some bowls, some imperfections natural to wood are revealed through this process and geometric inclusions of a different wood are inlaid. These unique and expressive inclusions are an age old technique of making.

Teak, Natural

Mahogany, Natural

*Ø300 bowl available in limited quantities

*Rosewood bowls are available on request

Use & Care

Our bowls are finished using food safe oils. Periodically, apply a generous coat of oil with a clean cotton cloth, let it soak for an hour, then wipe off the excess. Oiled wood should be wiped with a dry cotton cloth as required.

We find beauty in the marks of unique character – subtle variations of grain, figure, and texture inherent in materials that deepen through use and patinate over time.

For more details, please refer to our [material care guide](#).
