Tools required M5 Allen key
 Phillips head screwdriver

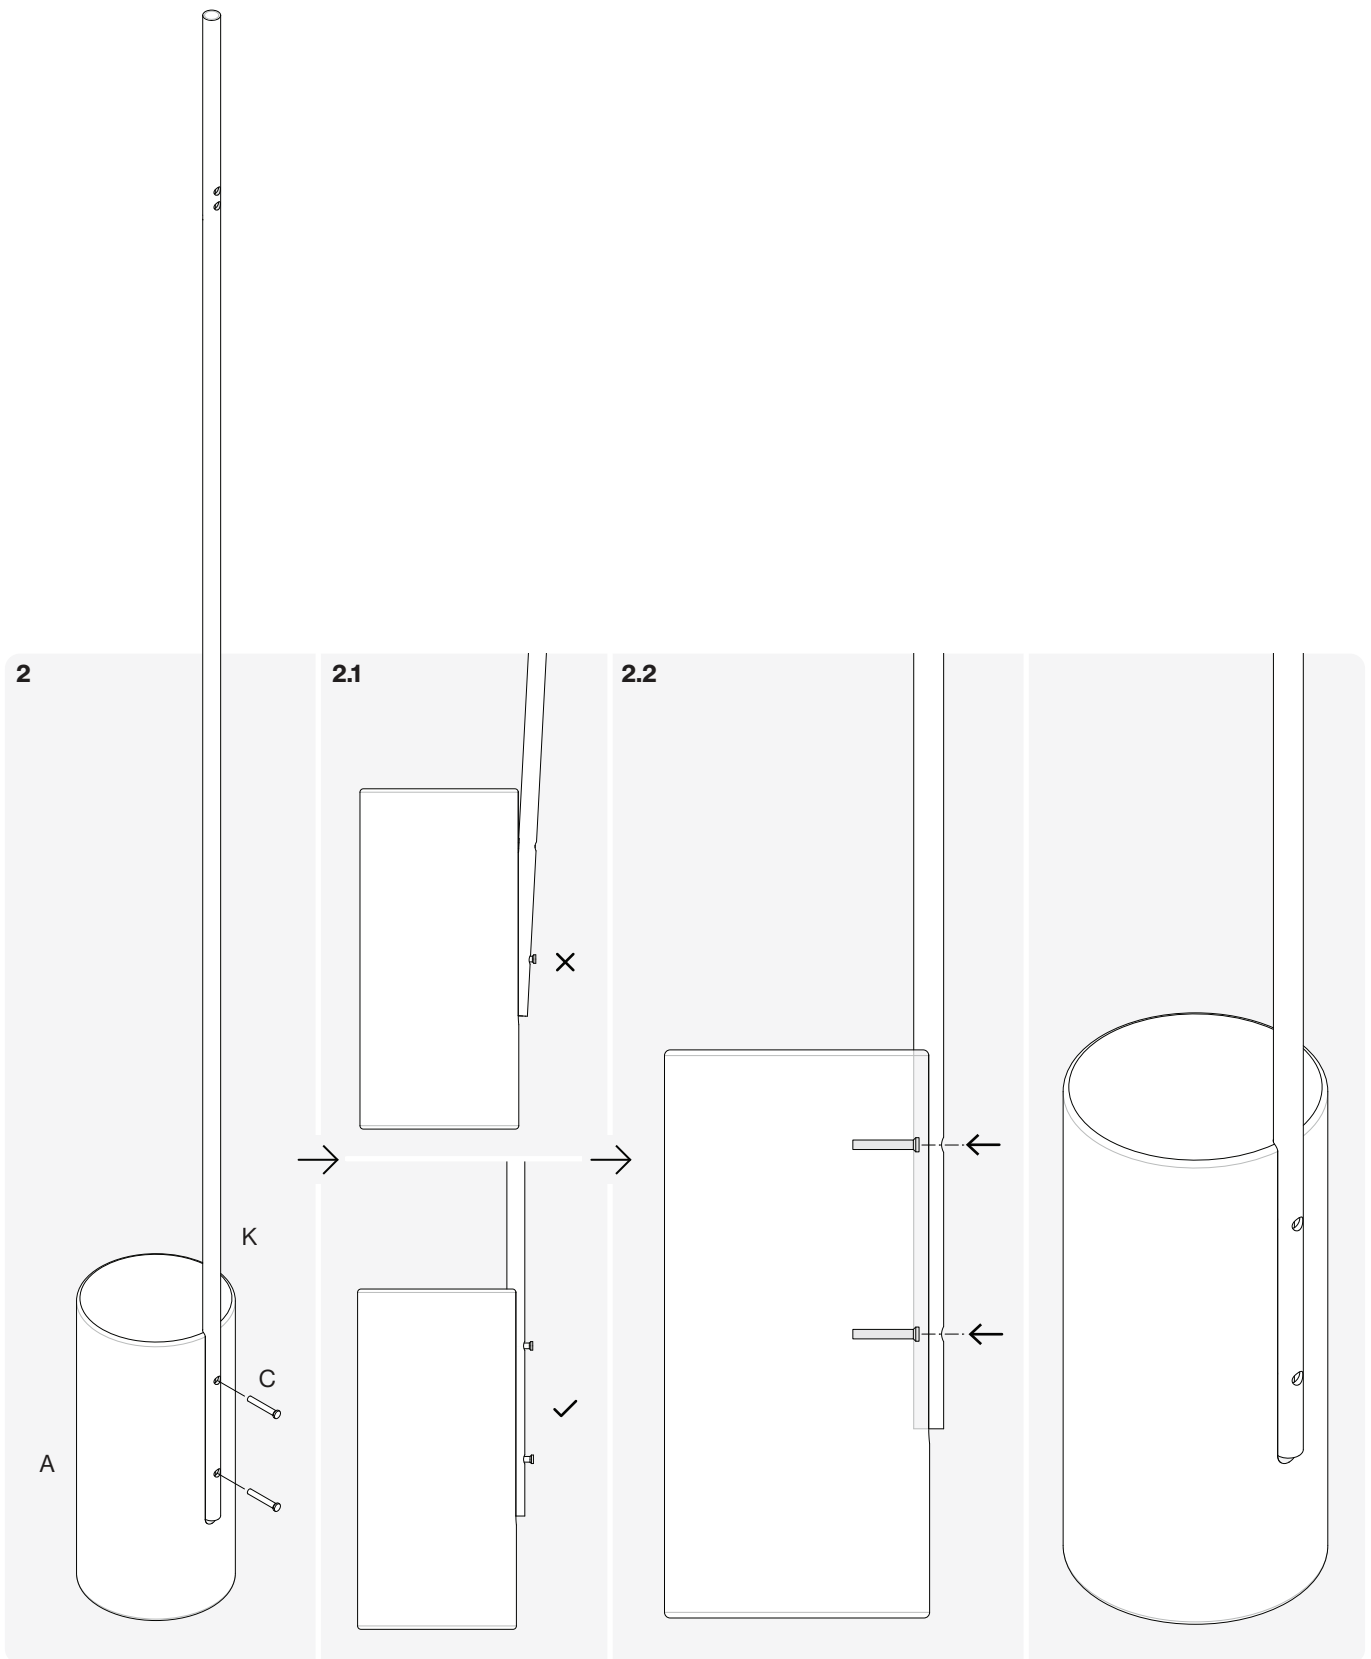

- 1 Take base (A) out of the cloth sleeve and place, as illustrated below, on a piece of cloth to avoid scratching the surface.

Ensure there is plenty of space around you when assembling.

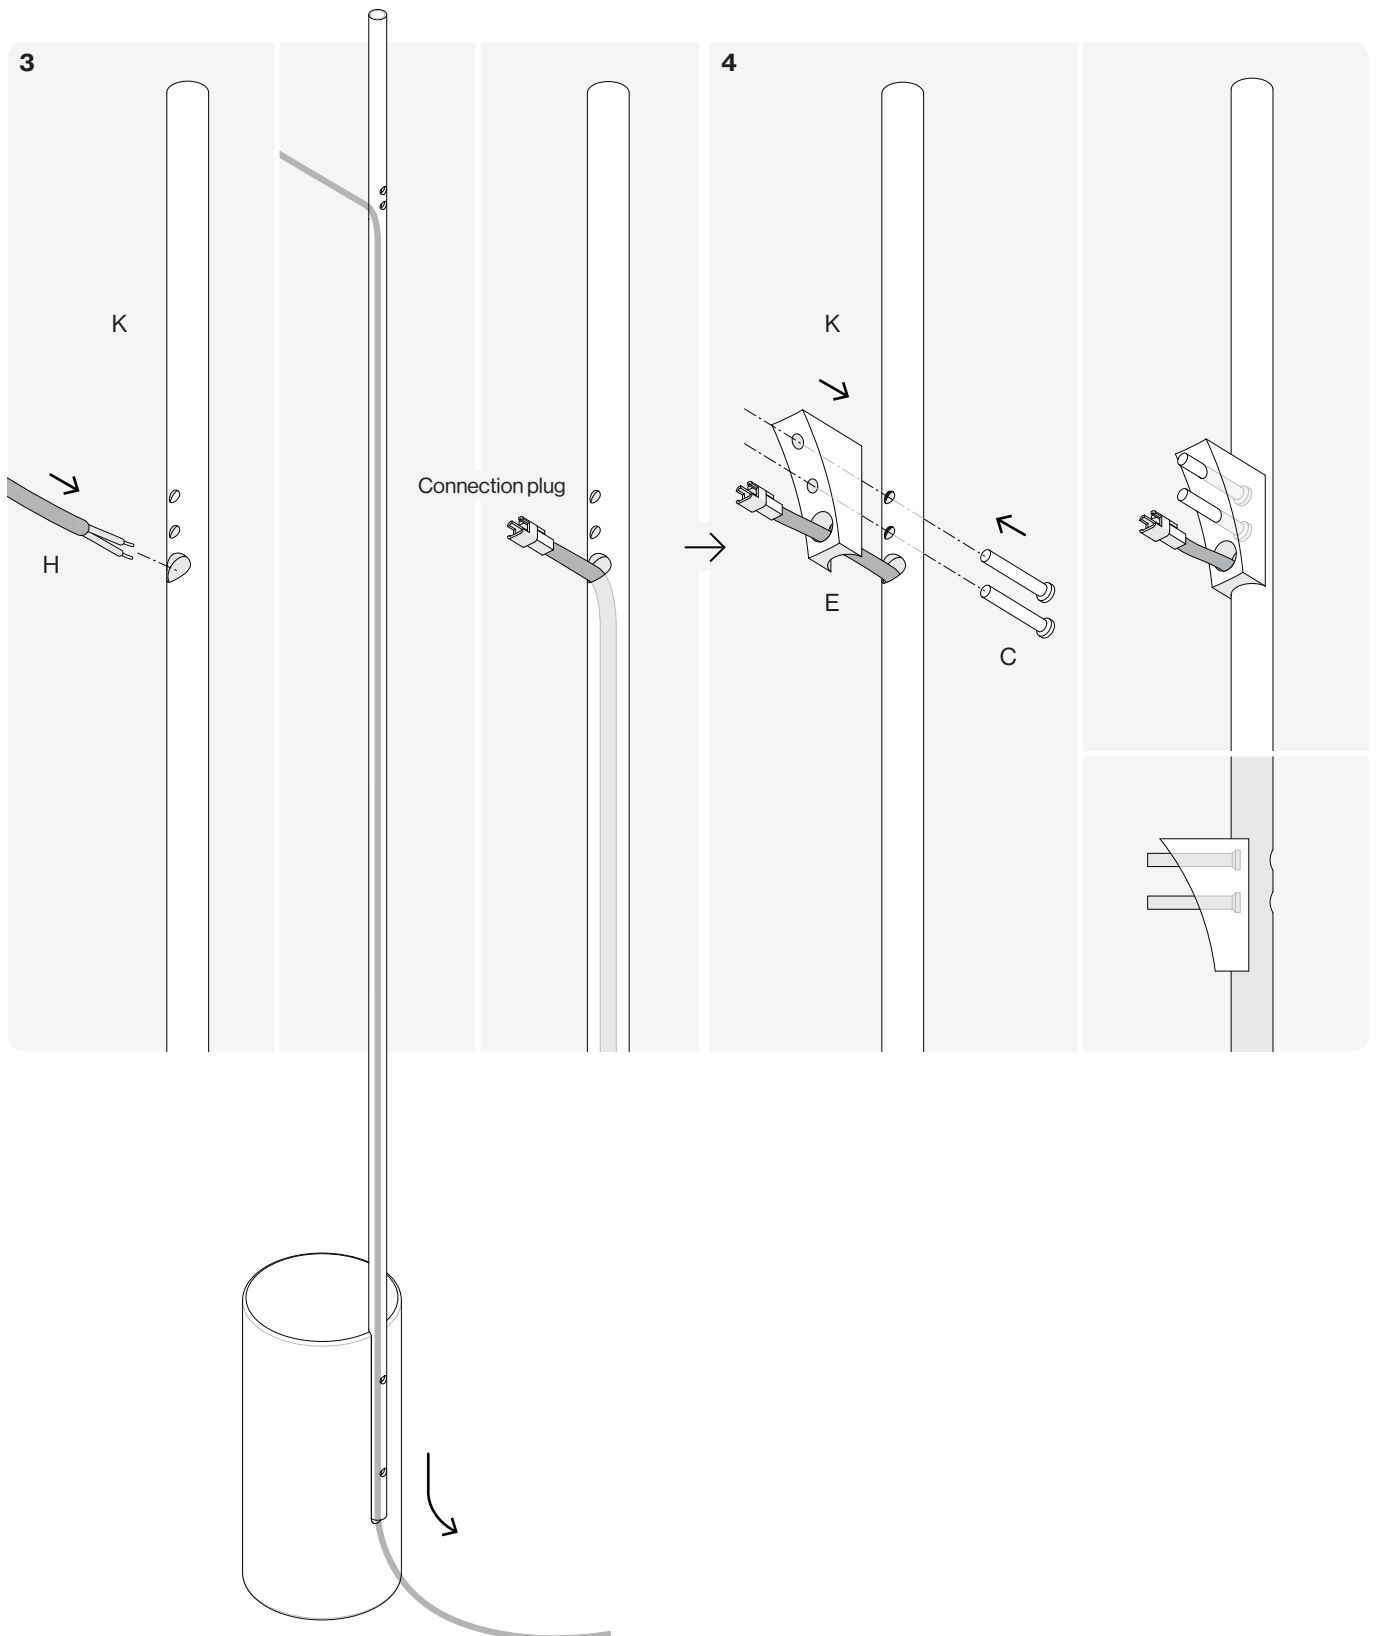

1

- 2** Screw in rod (K) into base (A) with the provided m5 allen key screws (C). Ensure the rod remains upright (fig 2.1) when fastening the screws all the way into marble base (fig 2.2).

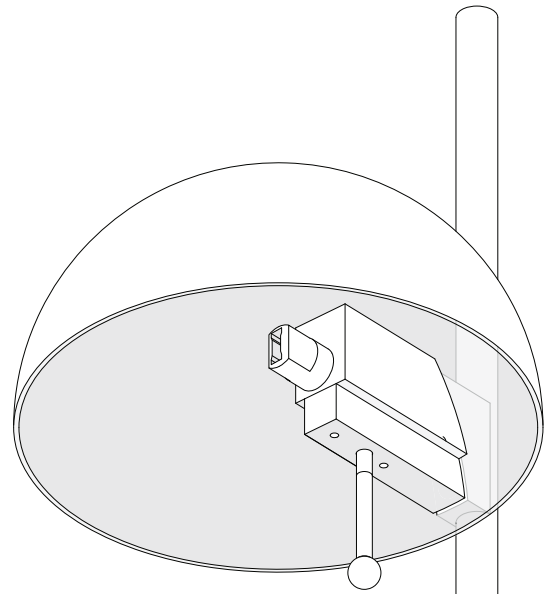

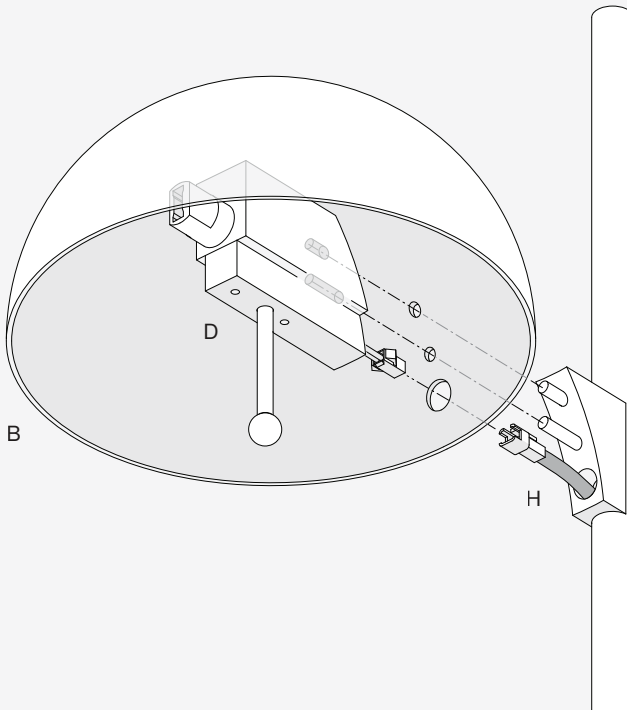

- 3** Pass connection wire (H) through the hole in the top of the rod until you can pull it out from the bottom of the rod while leaving the connection plug exposed.
- 4** Pass connection plug through spacer piece (E), and screw spacer piece to the rod (K) using the provided M5 allen key screws (C).

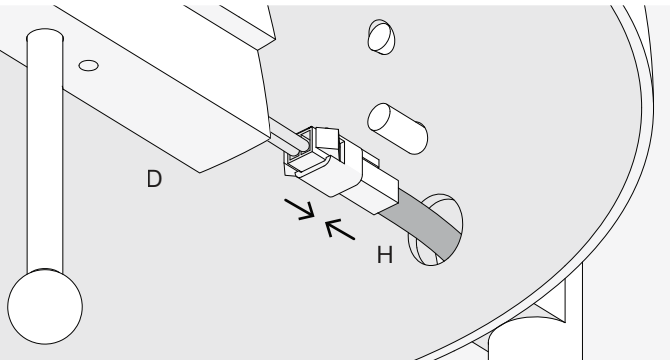

- 5** Join the plug from the dimmer assembly (D) to the plug from the connection wire (H) while passing the wire through the dome (B) as illustrated (fig 5.1).

Align dimmer assembly to holes on the dome, and push against the dome while simultaneously tightening the screws (C) into the dimmer assembly (fig 5.2).

5.2

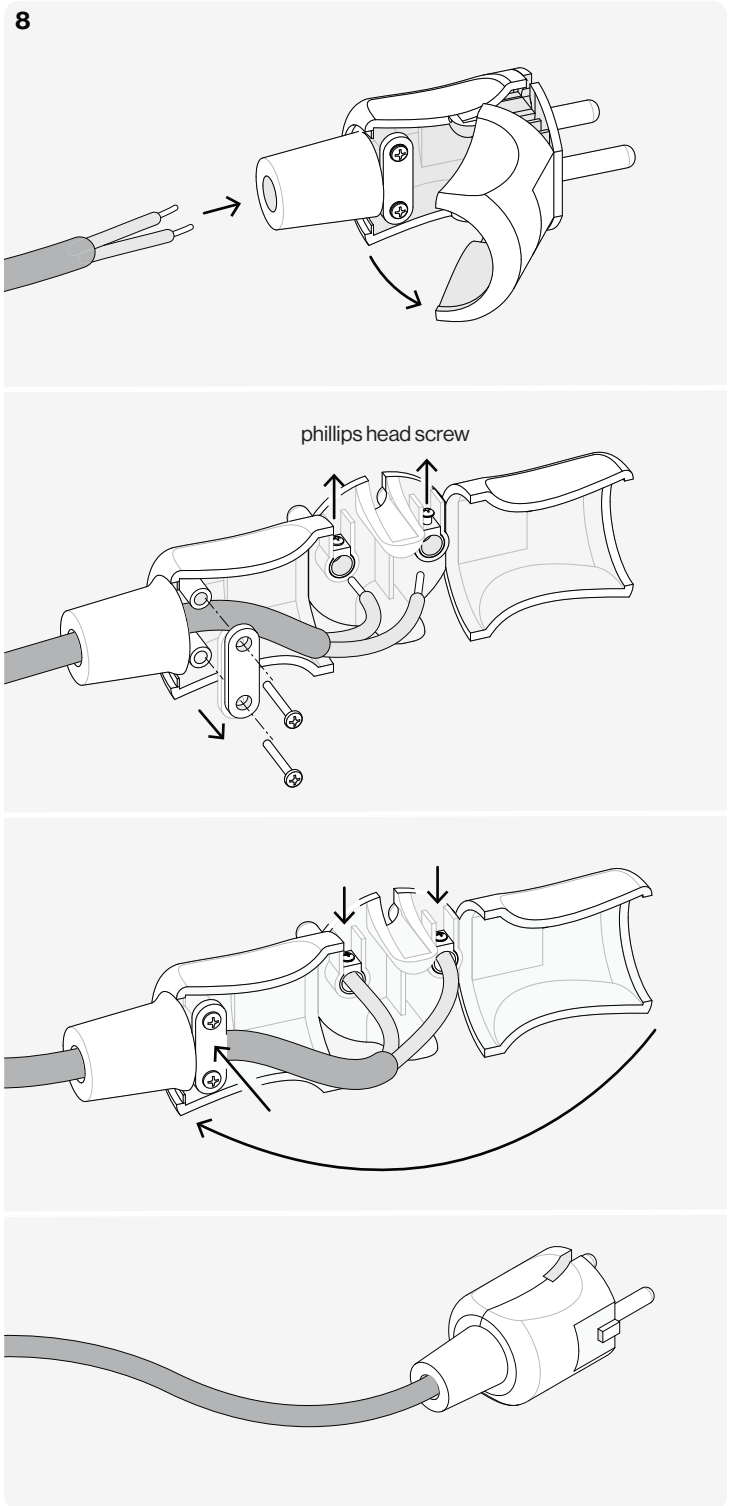

- 6** Insert bulb (F) into the dimmer assembly.

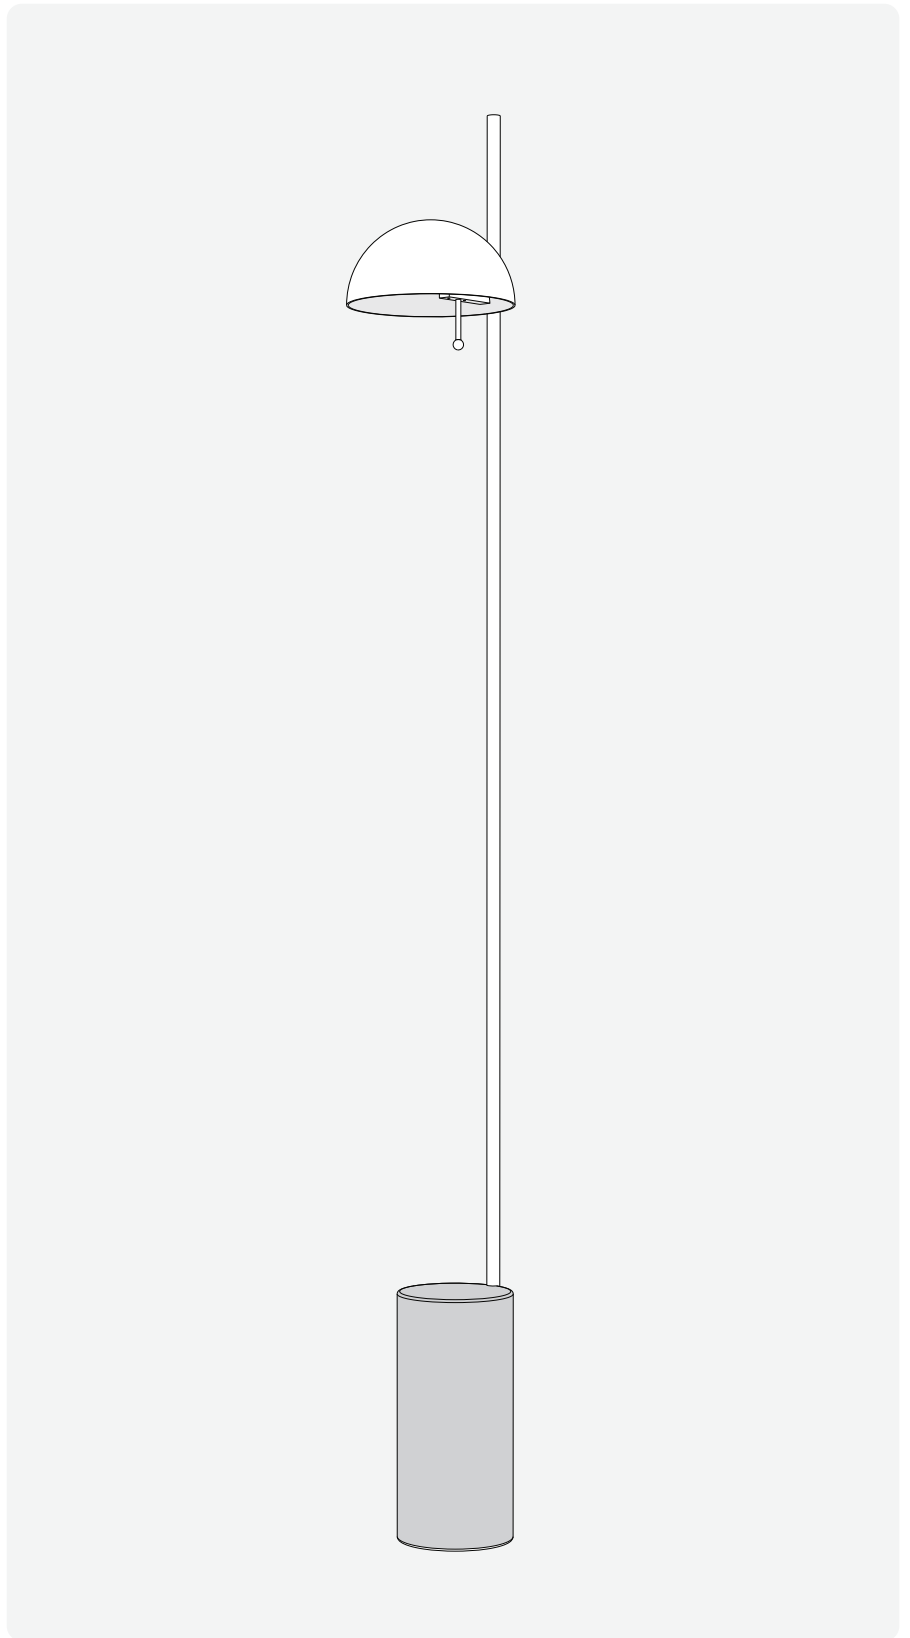

- 7** Insert pipe grub screws (J) on the two open holes on the top and bottom of the rod (K). Ensure the pipe grub screws are flush with the rod.

- 8** Open the wall plug (G) and onnect the exposed cable from the bottom of the rod (K) as illustrated.

Care **Brass** can be polished when desired with any brass cleaning agent to recover its original shiny gold look. However, we recommend it be left to age naturally.

Stone, being slightly porous, can be simply wiped with a clean cloth.

Casegoods was born out of a passion for materials, a commitment to the act of making, and an awareness of our impact as designers on the shared environment. Our products are rooted in the indian tradition of craft while remaining considerate to contemporary living.
