

**Dipā**  
*Oil Lamps*

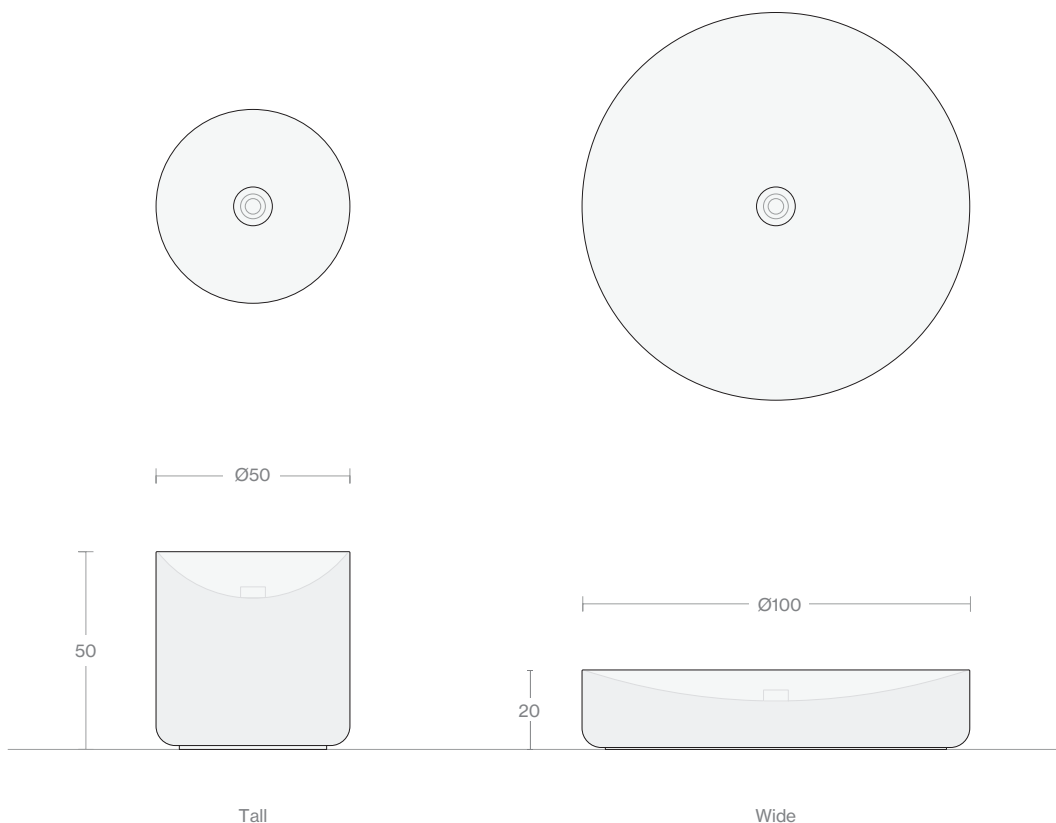

Made from solid brass, each lamp houses a hidden reservoir of oil to fuel the cotton wick at its center. The polished spherical basin softly reflects the flickering light, echoing the luminary extent of the flame.

Brass, Polished

**Use & Care**

Brass surfaces are left exposed to age naturally through use. If desired, the original polish can be restored using a brass-specific cleaning agent and a soft cotton cloth.

Includes a brass nozzle and a spare wick. We recommend using paraffin oil for best results.

Your Dipā may get hot with extended use. Please handle with care, and keep out of reach of children during storage and use.

For more details, please refer to our [material care guide](#).
